

Engagement Surveys and Employer Awards

Surveys Overview

As an all-remote company, there are several surveys we run to better understand the GitLab culture, team member engagement, and overall health of the organization.

Seeking inputs from team members by surveying people is a key part of GitLab's engagement strategy and helps the People Group to align our priorities to the areas team members care about most.

There are different survey types that we run at different times throughout the year, each with different intended outcomes:

- Employer Award surveys: we ask team members to complete employer award surveys (i.e. Great Place to Work) to understand how GitLab compares against our talent competitors and to give future candidates insight into what it would look like to work here. The process for selecting and participating in employer award surveys is outlined in the Talent Brand section of the handbook.
- Engagement survey: We partner with CultureAmp to host and run our engagement surveys. We ask all team members to complete this survey at least once a year to understand how engagement is tracking over time.
- Organizational Health survey: we will sometimes run a survey to understand our company and culture more fully (i.e. McKinsey OHI survey) and classify these efforts as Organizational Health surveys.

Employer Award surveys

Great Place to Work

Great Place to Work recognizes companies for their outstanding workplace culture, benefits and performance through successful completion of a regional team member survey and culture brief application. They partner with Fortune to produce the Fortune 100 Best Companies list annually. The survey is based off of the following components:

1. US-based respondents only
1. Surveyed over a 2-week period
1. 61 Statements
1. 14 On-Survey Demographic Questions
1. 2 Open-Ended Questions

<details><summary>FY26 Great Place to Work Survey Results</summary>

GitLab received Great Place to Work Certification for the 5th year in a row in the US in April 2025 and was recognized as a top employer where team members are proud to work.

1. 87% average of all statements
1. 92% of team members say GitLab is a Great Place to Work

CultureAmp Engagement Survey Overview

Team Member Engagement is important to the continued success of GitLab making the Engagement Survey an important element within the annual People Group calendar. Engagement strategies have been shown to reduce attrition; improve productivity and efficiency; further embed the company values and ultimately enhance role satisfaction.

We partner with CultureAmp to run our Engagement Surveys. CultureAmp provides a platform to gather feedback confidentially, benchmark against external comparables, and uses algorithms to highlight which areas matter most to our team members.

Engagement surveys are geared toward giving team members an opportunity to provide feedback in terms of their experience within GitLab touching on pertinent elements such as Company Culture, Teamwork, Management and Inclusion among others.

Feedback from the survey in turn allows Leadership within GitLab to gain insight into what is most important to team members, in particular what the business is doing well and what may need future iteration with the intention of improving the underlying team member experience and ensuring healthy levels of attrition are maintained.

Survey Confidentiality

In an effort to ensure team member confidentiality is upheld, only managers with >5 respondents will be able to view quantitative results - this is carried across to demographic filtering in teams with population sizes which exceed the minimum too. The survey is wholly administered by Culture Amp on a secure external website and the survey data will not be stored on any local computer. If you'd

like to know more, check out CultureAmp's FAQ guide.

Survey Participation

To make sure we hear from as many team members as possible, the People Group will provide Divisional leaders and People Business Partners with access to participation rates at the Divisional level and to managers with 5 or more direct reports.

We will share with individual managers how close they are to receiving enough responses to view a detailed report noting that managers can only see individualized results for their teams if 5 or more of their direct reports complete the survey. We will not report participation statistics for managers with fewer than 5 direct reports.

Survey Sections and Factors

The GitLab Team Member Engagement Survey is comprised of eleven sections each of which is aligned to a specific area of focus otherwise known as a factor.

The survey factors we primarily focus on:

1. Overall Sentiment and Inclusivity
2. Confidence in GitLab and Management
3. Your Role & Connecting at GitLab
4. Team and Company Values
5. Action
6. Open text questions

Overall survey ranges anywhere from 40 to 50 questions. The format of the survey was predominantly Likert or Rating Scale with a handful of free text questions or comments toward the end. The favorable score is the percentage of participants who selected 'agree' and 'strongly agree'.

FY26-Q4 Pulse Survey

Overview

The FY26-Q4 Pulse Survey is our first pulse survey, designed to provide a focused check-in on key sentiment areas from the annual survey and gather feedback following the All-Company assembly. This lighter-weight survey helps us track progress on our action plans and understand team member reactions to important business communications without waiting another 6+ months for the next annual survey.

Survey Details

- Launch Date: November 12, 2025
- Close Date: November 26, 2025 at 11:59 PM PST
- Eligible Participants: All active team members hired on or before October 13, 2025
- Estimated Completion Time: 5-7 minutes
- Total Questions: 18 questions (16 rating & 2 open feedback)

*Only leaders with 5 or more respondents will receive a report in CultreAmp

Survey Focus Areas

The pulse survey includes questions on:

- Overall Engagement and Confidence - Core engagement metrics to track overall team member sentiment
- Recent Assembly - Understanding of GitLab's current priorities

Results and Reporting

- Results Timeline: Available within 3 weeks of survey close (approximately December 12, 2025)
- Report Sharing Timeline:
 - Culture Amp Reports will be shared with E-Group on 2025-12-02
 - Culture Amp Reports will be shared with Functional Leaders on 2025-12-08
 - Managers with 5+ responses will have access to their reports on 2025-12-10
 - All Company deck - to be shared 12-15-2025
- Company Summary: Shared with all team members
- Divisional Results: Leaders access detailed data through Culture Amp self-service dashboards
- Reporting Approach: Self-service reporting with documentation support (no custom divisional presentations)

Resources

- FY26-Q4 Pulse Survey Manager FAQ Guide
- Culture Amp Self-Service Reporting Documentation - [LINK TO BE ADDED](#)
- For questions or support, contact your People Business Partner or submit a request via HelpLab

Why a Pulse Survey?

The pulse survey serves two key purposes:

1. Track key sentiment areas from our annual survey to monitor progress on our action plans
2. Gauge understanding and reactions following the All-Company assembly where important business context and strategic direction were shared

This focused approach allows us to:

- Validate whether current action plans are working
- Respond more quickly to emerging concerns
- Reduce temporal bias from annual-only surveying
- Minimize survey burden while maintaining data quality

FY26 Engagement Survey Results

Our FY26 Annual Engagement Survey ran from 2025-06-09 to 2025-06-30. The survey was open to team members hired before 2025-05-31.

- We reached 86% participation, which is 3% higher than the FY25 Engagement Survey.
- Overall engagement score of 75% favourable, 16% neutral and 9% unfavourable.
- We scored 3% lower than we did in the FY25 Engagement Survey overall, and 4% higher than our New Tech 1000+ peer group (January 2025 benchmark), which consists of fast-growing tech companies with 1000+ total team members.
- GitLab remains in a solid position from an overall engagement score perspective with several key opportunities highlighted in the detailed results section.

Below you will find a summary of our overall results, as well as key insights and opportunities. A huge thanks to everyone who completed the survey and made their voices heard. Your feedback helps us to continually improve the experience of working at GitLab.

Company Results (Overall)

Favourable	Neutral	Unfavourable
75%	16%	9%

Detailed Results (Overall)

We've documented our detailed FY26 Annual Engagement Survey results in a presentation shared in this post by Bill.

Those detailed results highlight the strengths and opportunities shared below in greater detail.

Top Three Scores

In addition to Engagement, we asked questions about other factors regarding our workplace and culture. A factor score is the average score of all questions within that factor.

Factor	Favourability Rating
Psychological Safety	88%
Your Manager	85%
Values	83%

Top Scores - Individual statements	Favourability Rating
Members of my team are able to bring up problems and tough issues	90%
I trust team members at GitLab	89%
I would rate my team as high performing	88%

Top Three Opportunities

Factor	Favourability Rating
Change Success	56%
Action	59%
Our Leaders	62%

Opportunities - Individual statements	Favourability Rating
The changes introduced during this fiscal year have improved our company culture	36%
I can easily find the information I need in the handbook	46%
I believe action will take place as a result of this survey	58%

Using Epics and Issues to Create an Action Plan

All divisions are recommended to create an Epic to store Engagement Survey Action Issues. Every Division should create an Epic that gives an overview of the engagement survey results that includes: highlights, lowlights, recommended actions, and resources. Epics can be created in division issue boards or projects that are applicable to the organization.

In addition, Managers can create an Engagement Survey Action Issue that links to the division wide Epic. In the Issue, managers can link team wide actions to the division. Here is the recommended action planning tips for managers.

FY25 Engagement Survey Action Planning Epics

<summary markdown="span">FY'23 and prior Years Engagement Surveys</summary>

Summit Pulse Surveys Overview

The goal of the Summit is to build trust through social connections. This trust should lead to higher individual and team motivation, leading to higher productivity and retention. Higher trust between individuals and teams fuels collaboration and leads to stronger results.

To best determine how effective we are at achieving the goal of Summit is to gauge team member perceptions before and after the event.

We ran two surveys

- Pre-Summit: January 9, 2024 to January 19, 2024
- Post-Summit: March 15, 2024 to April 5, 2024

This will helped us gain valuable insights into any shifts in sentiments among team members, allowing us to assess the true impact of the summit, satisfaction and engagement.

This is an abbreviated version of our engagement survey, and it also includes a few Summit related questions.

FY'24 Engagement Survey

FY'24 Engagement Survey Timeline

- 2023-05-16: Engagement Survey launch
- 2023-06-07: Engagement Survey close
- 2023-06-16: Results shared with e-group
- 2023-06-21: Results shared with VPs
- 2023-06-22: Managers with 5+ responses receive reports via Culture Amp
- 2023-06-22: Initial results at the Q2 Assembly
- 2023-06-22 through 2023-07-04: Leaders/Managers review their reports and discuss/brainstorm action plans in Staff/team meetings

- 2023-07-21: Target date for full results shared company-wide
- 2023-07-30: Finalize Action items and document in epics/issues
- 2023-08-01: Division action plans added to FY'24 Q3 OKRs and Division epics
- 2023-08-31: Department action plans (if applicable) complete

FY'24 Q2 Engagement Survey Results

Our Engagement Survey FY'24 Q2 ran from 2023-05-22 to 2023-06-07. The survey was opened to team members hired before 2023-04-30.

- We reached 88% participation which is 6% higher than the FY23 Pulse Engagement survey.
- Overall engagement score of 75% favorable, 17% neutral and 8% unfavourable.
- We scored 6% lower than we did in the FY'23 Q2 Engagement Survey overall, but this score is still 2% higher than our New Tech peer group, which consists of ~200 fast growing and disruptive tech companies who have ~1000+ total team members.
- Amongst our SaaS Talent Peers of 1000+ team members, Culture Amp shared that engagement scores are decreasing by 5-10% due to macroeconomic conditions and uncertainty in the industry.
- GitLab remains in a strong position from an overall engagement score perspective with several opportunities highlighted in the detailed results section.

Below you will find a summary of our overall results, as well as key insights and opportunities. A huge thanks to everyone who completed the survey and made their voices heard. Your feedback helps us to continually improve the experience of working at GitLab.

Company Results (Overall)

Favourable	Neutral	Unfavourable
75%	17%	8%

Detailed Results (Overall)

We've documented our detailed FY24 Culture Amp Engagement survey results in a presentation that is available only for GitLab team members.

Those detailed results highlight the strengths and opportunities shared below in greater detail.

Top Three Scores

In addition to Engagement, we asked questions about other factors regarding our workplace and culture. A factor score is the average score of all questions within that factor.

Factor	Favourability Rating
Psychological Safety	88%
Your Manager	84%
Connectedness	78%

Top Scores - Individual statements	Favourability Rating
I enjoy engaging with my peers at GitLab	94%
It is easy to ask other members of your team for help	92%
No one on my team would deliberately act in a way that undermines my efforts	91%

Top Three Opportunities

| Factor | Favourability Rating |

| ----- | ----- |

| Action | 58% |

| Company Confidence | 60% |

| Our Leaders | 62% |

| Opportunities - Individual statements | Favourability Rating |

| ----- | ----- |

| I believe action will take place as a result of this survey | 55% |

| GitLab effectively directs resources (funding, people and effort) towards company goals | 57% |

| When there are career opportunities at GitLab, I am aware of them | 58% |

Additional analysis associated with these opportunities is included in our detailed FY24 Culture Amp Engagement survey results presentation that is available only for GitLab team members.

Using Epics and Issues to Create an Action Plan

For the FY24 Engagement Survey, all divisions are recommended to create an Epic to store Engagement Survey Action Issues. Every Division should create an Epic that gives an overview of the engagement survey results that includes: highlights, lowlights, recommended actions, and resources. Epic's can be created in division issue boards or projects that are applicable to the organization.

In addition, Managers can create an Engagement Survey Action Issue that links to the division wide epic. In the Issue, managers can link team wide actions to the division.

FY'23 Pulse Engagement Survey

FY'23 Pulse Engagement Survey Timeline

- 2022-05-16: Pulse Survey launch
- 2022-05-25: Pulse Survey close
- 2022-06-14: Results shared with e-group
- 2022-06-21: Managers with 5+ responses receive reports via Culture Amp
- 2022-06-21 through 2022-07-04: Leaders/Managers review their reports and discuss/brainstorm action plans in Staff/team meetings
- 2022-06-28 and 2022-06-29: Results shared company-wide at GitLab Assembly
- 2022-07-30: Finalize Action items and document in epics/issues
- 2022-08-01: Functional action plans added to FY'23 Q3 OKRs and Division epics

Taking Action

Once the GitLab Team Member Engagement Survey has been closed out, reports will be disseminated to the E-Group and Divisional Heads for review i.e. only those with team populations >5. These will form the basis of discussion when collaboratively compiling the people strategy for year ahead in conjunction with additional data such as attrition reports etc.

Timeline for Action Planning

- Each E-Group member will in collaboration with their respective People Business Partner (PBP) to identify one or two action items to initiate coming out of the results review - these will be tracked and managed via a dedicated Epic in GitLab per Division.
- After action items have been identified at the E-Group level, all managers who received an engagement survey result report (AKA: managers with 5+ direct reports who responded to the survey) will also be asked to create an action plan in Culture Amp.
- A manager may choose to align their action planning to their leader or division or they may choose to add a specific and separate action for their team. This will likely depend on the size/structure of the organization.

Using Epics and Issues to Create an Action Plan

For the FY23 Engagement Survey, all divisions are recommended to create an Epic to store Engagement Survey Action Issues. Every Division should create an Epic that gives an overview of the engagement survey results that includes: highlights, lowlights, recommended actions, and resources. Epic's can be created in division issue boards or projects that are applicable to the organization.

In addition, Managers can create an Engagement Survey Action Issue that links to the division wide epic. In the Issue, managers can link team wide actions to the division.

See the example epics from FY22 for inspiration.

FY'23 Q2 Pulse Engagement Survey Results

Our Pulse Engagement Survey FY'23 Q2 ran from 2022-05-16 to 2022-05-25. The survey was opened to team members hired before 2022-04-30.

1. We reached 82% participation and an overall engagement score of 81% favorable.

1. We scored 4% lower than we did in the FY'22 Q4 Engagement Survey overall, but this score is still 8% higher than our New Tech peer group, which consists of ~150 fast growing and disruptive tech companies who have ~1000+ total team members.

1. Amongst our SaaS Talent Peers of 1000+ team members - engagement scores are decreasing by 5-10% from pre to during-pandemic times.

1. GitLab remains industry-leading from a scoring perspective.

Below you will find a summary of our overall results, as well as key insights and opportunities.

A huge thanks to everyone who completed the survey and made their voice heard. Your feedback helps us to continually improve the experience of working at GitLab.

Company Results (Overall)

Favourable	Neutral	Unfavourable
81%	13%	6%

Top Three Scores

In addition to Engagement, we asked questions about other factors regarding our workplace and culture. A factor score is the average score of all questions within that factor.

Factor	Favourability Rating
Your Manager	87%
Inclusion	82%
Growth & Development	81%

GitLab was rated between 5%-8% percent higher than the industry benchmark i.e. New Tech (1,000+) 2022 across all three factors detailed above.

| Question | Favourability Rating |

Factor	Favourability Rating
I am proud to work for GitLab	94%
I would recommend GitLab as a great place to work	91%
My manager keeps me informed about what is happening	90%

GitLab was rated between 6-8% higher than the industry benchmark i.e. New Tech (1,000+) 2022 across all three questions detailed above.

Top Three Opportunities

Factor	Favourability Rating
Action	59%
Your Role	70%
Our Leaders	77%

GitLab was rated up to 3% higher than the industry benchmark i.e. New Tech (1,000+) 2022.

Question	Favourability Rating
I have seen positive changes taking place based on recent team member survey results	54%
I believe my Compensation (Base, Bonus, etc.) is competitive relative to similar roles at other companies	62%
I believe action will take place as a result of this survey	64%

GitLab scored 4% higher than the industry benchmark i.e. New Tech +1,000 2022 for the lowest scoring question surrounding positive actions, 9% higher than the benchmark regarding compensation and 2% higher regarding actions taken from the survey.

FY'22 Pulse Engagement Survey

How We Determine "Pulse" Survey Questions

In FY'22 Q4 we launched our first "pulse" survey. To determine these questions we leveraged a combination of Culture Amp's "impact" feature + recommended focus areas + key themes related to the Great Resignation (according to Culture Amp's People Scientist teams) to determine which rating questions to include in the pulse survey.

Per CultureAmp's insights related to the Great Resignation, we added questions related to:

- Focus on "Your Manager" (feedback from Manager, and overall manager performance)
- Inclusion
- The 5 overall Engagement factor questions

Culture Amp determines which questions are "focus recommendations" based on: impact on overall, favorable score, comparison to benchmarks. Here is more information on how Culture Amp determines "focus" recommendations.

"Impact" is a word we use to refer to a statistical technique called a driver analysis. People Intelligence relies on a lot of data and analysis techniques, and one of the most powerful is Driver Analysis. Driver Analysis lets you focus on the most important drivers of outcomes for your culture. The questions that are identified as the top drivers are the questions that are most likely having the biggest impact on Engagement (or whatever measure you have set up as your outcome). So if you were able to improve your scores on these questions, you are likely to improve your Engagement score. You can find more information on how "impact" is determined [here](#).

In addition to leveraging insights from our Engagement Survey tool, Culture Amp, the People Group may add in a couple of additional questions particularly relevant to current business priorities, changes, and/or challenges.

FY'22 Pulse Engagement Survey Questions

The FY'22 Pulse Engagement Survey included 19 rating questions and 3 open ended text questions. A complete list of questions can be found [here](#).

FY'22 Pulse Engagement Survey Timeline

- 2021-11-04: Pulse Survey launch @ 8am PT
- 2021-11-18: Pulse Survey close @ 11pm PT
- 2021-11-22: High-level summary shared with CPO and PBPs
- 2021-11-29: High-level summary shared with e-group
- 2021-12-01: High-level summary release (company-wide)
- 2021-12-03: E-group division-level summary release
- 2021-12-08: Training video (updated as needed) and results handbook update
- 2021-12-10 through 2021-12-31: Functional group action planning
- 2022-01-31: Functional action plans added to FY'23 Q1 OKRs and Division epics

Note: Only team members hired on or before October 15, 2021 will be eligible to participate in the Pulse Engagement Survey.

Taking Action

Once the GitLab Team Member Engagement Survey has been closed out, reports will be disseminated to the E-Group and Divisional Heads for review i.e. only those with team populations >5. These will form the basis of discussion when collaboratively compiling the people strategy for year ahead in conjunction with additional data such as attrition reports etc.

Timeline for Action Planning

- Each E-Group member will in collaboration with their respective People Business Partner (PBP) to identify one or two action items to initiate coming out of the results review - these will be tracked and managed within CultureAmp moving forward using the Action Framework.
- After action items have been identified at the E-Group level, all managers who received an engagement survey result report (AKA: managers with 5+ direct reports who responded to the survey) will also be asked to create an action plan in Culture Amp.
- A manager may choose to align their action planning to their leader or division or they may choose to add a specific and separate action for their team. This will likely depend on the size/structure of the organization.

Using Epics and Issues to Create an Action Plan

For the FY22 Engagement Survey, all divisions are recommended to create an Epic to store Engagement Survey Action Issues. Every Division should create an Epic that gives an overview of the engagement survey results that includes: highlights, lowlights, recommended actions, and resources. Epic's can be created in division issue boards or projects that are applicable to the organization.

In addition, Managers can create an Engagement Survey Action Issue that links to the division wide epic. In the Issue, managers can link team wide actions to the division.

See the examples from FY21' for the Product and Development groups for inspiration.

FY' 22 Q4 Pulse Engagement Survey Results

Our Pulse Engagement Survey FY'22 Q4 ran from 2021-11-4 to 2021-11-18 and was open to all team members who started prior to 2021-10-15. We reached 87% participation and an overall engagement score of 85% favorable.

This score is 9 pts higher than our New Tech peer group, which consists of ~150 fast growing and disruptive tech companies who have ~1000+ total team members.

We also scored 4 pts higher than we did in the 2020 Engagement Survey overall.

Below you will find a summary of our overall results, as well as key insights and opportunities.

A huge thanks to everyone who completed the survey and made their voice heard. Your feedback helps us to continually improve the experience of working at GitLab.

Company Results (Overall)

Favourable Neutral Unfavourable
----- ----- -----
85% 11% 4%

Top Three Scores

In addition to Engagement, we asked questions about other factors regarding our workplace and culture. A factor score is the average score of all questions within that factor.

Factor Favourability Rating
----- -----
Company Confidence 94%
Inclusion 88%
Our Leaders 83%

GitLab was rated between 4%-12% percent higher than the industry benchmark i.e. New Tech (1,000+) 2021 across all three factors detailed above.

Question Favourability Rating
----- -----
I am proud to work for GitLab 96%
GitLab is in a position to really succeed over the next three years 94%
I would recommend GitLab as a great place to work 94%

GitLab was rated between 7-12% percent higher than the industry benchmark i.e. New Tech (1,000+) 2021 across all three questions detailed above.

Top Three Opportunities

Factor	Favourability Rating
Action	55%
Your Role	67%
Growth & Development	79%

GitLab was rated between 1%-10% percent higher than the industry benchmark i.e. New Tech (1,000+) 2021 across all three factors detailed above.

Question	Favourability Rating
I have seen positive changes taking place based on recent team member survey results	48%
I believe action will take place as a result of this survey	61%
I believe there are good career opportunities for me at GitLab	72%

GitLab scored 1-2% below the industry benchmark i.e. New Tech +1,000 2021 for the two lowest scoring questions surrounding positive actions however GitLab scored 6% higher than the benchmark regarding career opportunities.

FY' 22 E-Group Focus Areas

For the FY'22 Q4 Pulse Engagement Survey results, we will be leaning into epics and issues for tracking and planning.

You can find full detail on the process and guidance here.

All links should be added by 2022-01-21 aligned with our timeline.

Actions taken since the last survey

Growth & Development

1. 2 L&D team members trained to deliver Crucial Conversations and so far delivered 3 cohorts in 2021
1. Hosted multiple live learning sessions
1. Organized Skill of the Month
1. Added LinkedIn Learning benefit for team members
1. Iterated and delivered multiple sessions of Manager Challenge
1. Implemented new GitLab Learn LXP
1. Built out mentorship handbook resources
1. Piloting LifeLabs Learning for Manager Enablement
1. Launched GitLab Team Members Certification
1. Learning & Development Team expansion with 2 new team members
1. Facilitated over 15 CEO Handbook Learning Sessions
1. Launched Functional Learning Hubs on GitLab Learn

Compensation

1. Implemented regions in the location factors.
1. Moved to annual refresh grants from 3.5 year refresh with the first cycle taking effect March 2021.
1. Moved from options to RSUs in September 2021.

1. Reduced the vesting for RSUs to new hire cliff of 6 months and no cliff for promos/refresh.
1. Implemented industry leading ESPP / Alternate ESPP for all team members at GitLab.

Resource Allocation

1. Increased headcount from 1267 team members in December 2020 to 1574 team members in December 2021.

1. Our average promotion rate in 2021 is 16.77%, which is higher than the average market promotion rate

Questions and Support

The GitLab Team Member Engagement Survey is managed by the People Operations Team. If you require support or have any questions around the survey please be sure to reach out via HelpLab.

Previous Engagement Survey Results

People Operations Procedures

How to add sub-departments or other demographics not found in Workday

1. Open CultureAmp > Settings > Data Intergrations
1. Select the blue Sync Data button
1. Select Partial Upload
1. Click on Export Users > Export
1. Update the information on the spreadsheet
1. Upload the spreadsheet into CultureAmp

1. Select Next (bottom right corner)

- If you select Sync it will only Sync with Workday, regardless if you uploaded a file.

1. Select Import Data

You have now updated a demographic in CultureAmp!

<summary>Organizational Health Surveys</summary>

In Q3 FY'23, our Talent & Engagement team ran our first organizational health survey.

GitLab used McKinsey & Company's Organizational Health Index "OHI" survey to help us understand where we have opportunities to help our organization and team members execute better and increase their impact. The OHI survey is separate from our CultureAmp Engagement survey; learnings from the former will complement the latter and also help inform workplace practices beyond GitLab.

FY'23 Q3/Q4 McKinsey OHI Survey Results

We've summarized high level results of the OHI survey for all GitLab team members in this document.

The document linked above is only available to GitLab team members.
